PUC to hold renewable energy conference **All-day event coming Wednesday at University of Texas**

The Public Utility Commission (PUC) is sponsoring a conference this week featuring a variety of energy experts as they discuss the latest efforts to increase opportunities for renewable energy in Texas.

“Renewable Solutions for Energy Prosperity in Texas” will be held Wednesday, Sept. 12 at the AT&T Conference Center on the University of Texas campus at 1900 University Ave. in Austin starting at 9 a.m.

“This is a great way to learn about the economic development potential that renewable energy brings to Texas,” said PUC Commissioner and conference host Rolando Pablos. “Renewables play a significant part in our state’s role as an energy leader.”

Presentations include appearances by elected officials, state agency executives, private and public utility representatives, academic leaders, and industry consultants. The complete agenda is at: <http://lifelong.engr.utexas.edu/puc/pdf/Agenda.pdf> .

Attendance is free. However, advance registration is required because space is limited. The registration Internet link is: <http://lifelong.engr.utexas.edu/puc/>

The entire conference will be Webcast live via www.texasadmin.com and also will be available for replay.

Continuing education credit is available. Conference funding is provided by a U.S. Department of Energy State Electricity Regulators Assistance Grant.
