

PROJECT NO. 25224

RULEMAKING PROCEEDING TO § PUBLIC UTILITY COMMISSION
ADOPT PROCEDURES FOR §
RECLAMATION OF NXX CODES § OF TEXAS
AND THOUSANDS-BLOCKS §

PROPOSAL FOR PUBLICATION AS APPROVED
AT THE MAY 2, 2002 OPEN MEETING

The Public Utility Commission of Texas (commission) proposes new §26.375, relating to Reclamation of Codes and Thousands-Blocks and Petitions for Extension of Code and Thousands-Block Activation. The proposed new rule will provide procedures for reclamation of codes and thousands-blocks pursuant to authority delegated to state commissions by the Federal Communications Commission (FCC), *In the Matter of Number Resource Optimization*, CC Docket No. 99-200, Report and Order, FCC 00-104 (rel. March 31, 2000). Project Number 25224 is assigned to this proceeding.

Jennifer Fagan, Attorney, Legal Division and Betsy Tyson, Telecommunications Network Analyst, Telecommunications Division, have determined that for each year of the first five-year period the proposed section is in effect there will be no fiscal implications for state or local government as a result of enforcing or administering the section.

Ms. Fagan and Ms. Tyson have determined that for each year of the first five years the proposed section is in effect the public benefit anticipated as a result of enforcing the section will be the conservation of telephone numbering resources. There will be no effect on small businesses or micro-

businesses as a result of enforcing this section. There is no anticipated economic cost to persons who are required to comply with the section as proposed.

Ms. Fagan and Ms. Tyson have also determined that for each year of the first five years the proposed section is in effect there should be no effect on a local economy, and therefore no local employment impact statement is required under Administrative Procedure Act §2001.022.

The commission staff will conduct a public hearing on this rulemaking, if requested, pursuant to Government Code §2001.029, at the commission's offices located in the William B. Travis Building, 1701 North Congress Avenue, Austin, Texas 78701 on Wednesday, July 10, 2002, at 9:30 a.m. The request for a public hearing must be received within 30 days after publication.

Comments on the proposed new section (16 copies) may be submitted to the Filing Clerk, Public Utility Commission of Texas, 1701 North Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326, within 30 days after publication. Comments should be organized in a manner consistent with the organization of the proposed rule. The commission invites specific comments regarding the costs associated with, and benefits that will be gained by, implementation of the proposed section. The commission will consider the costs and benefits in deciding whether to adopt the section. All comments should refer to Project Number 25224.

This new section is proposed under the Federal Communications Commission (FCC), *In the Matter of Number Resource Optimization*, CC Docket No. 99-200, Report and Order, FCC 00-104 (rel. March 31, 2000) and the Public Utility Regulatory Act, Texas Utilities Code Annotated §14.002 (Vernon 1998, Supplement 2002) (PURA), which provides the Public Utility Commission with the authority to make and enforce rules reasonably required in the exercise of its powers and jurisdiction.
